POWER RITE
The Rite Power Solution

POWERBOX

The ***POWERBOX*** is manufactured from reinforced steel and incorporates a pedestrian access door, double doors for servicing purposes both fitted with high security locking mechanisms.

Ultimately designed for unmanned, automated operation, the ***POWERBOX*** integrates the following features:

1. Personnel lighting
2. Electrical control and distribution system
3. Machinery access doors
4. Bulk fuel tank (2,000 litre capacity)
5. Generator (ranging from 10 - 150kVA)
6. Gentrax telemetry system
7. Personnel access
8. Intake / exhaust ducting
9. Spillage free 10ft x 8ft bunded container

No risk of leakage from the unit during operation, refuelling, servicing or vandalism (of tanks or pipework)
Low risk of noise pollution
